

Little things... **BIG Impact!**

*HELP our rapidly disappearing
local native plants & insects!*

Plant indigenous plants to power
the good insects that love them

Plants need pollinators & pollinators need plants

These plant heroes host many native insects

(from 6 to 19 species in our study, Mumaw and Mata 2022)

Cut-leaf Daisy

Kunzea

Sticky Everlasting

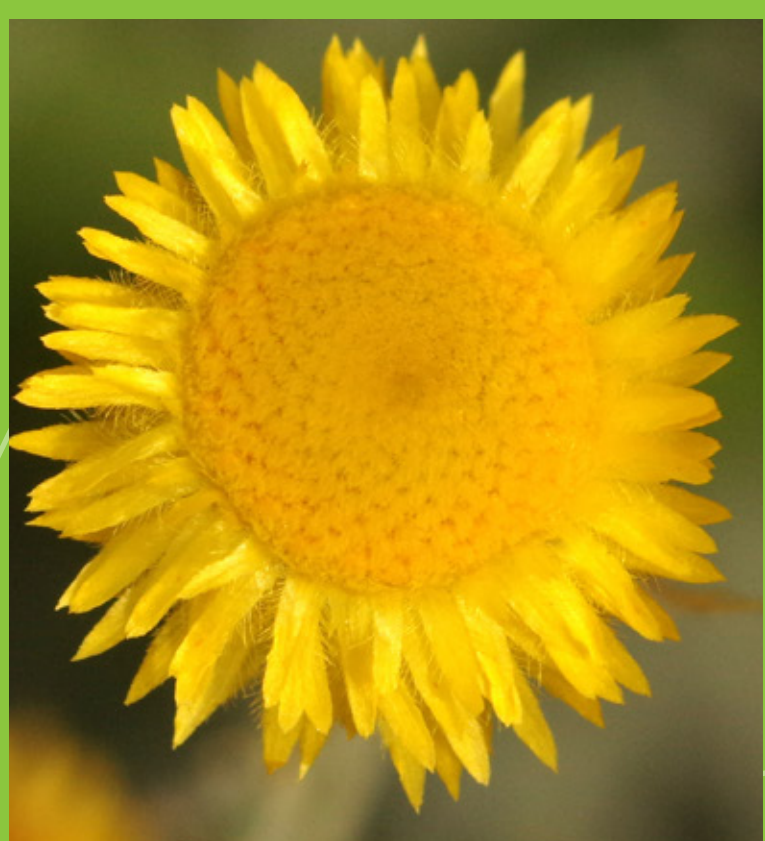

Cassinia

Hop Goodenia

Twiggy Daisy-bush

Common Everlasting

Austral Stork's-bill

Clustered Everlasting

White Correa

Check out the range of native insects visiting native plants in our study

Grass Blue Butterfly

Wasps

Beetles

Woolly Sweat Bee

Ants

Hoverflies

Painted Lady Butterfly

Blue-banded Bee
